About Me

Motivated Frontend Developer with a focus on building responsive and user-centric web applications. Proficient in React.js and modern CSS. Passionate about creating clean, efficient code and seamless user experiences.

PROJECTS

Flux Agency – Service-Based Web Application

- Developed a high-performance agency website using modern frontend technologies.
- Implemented responsive design principles to ensure seamless viewing across all devices.
- Focused on clean UI/UX to represent the agency's professional services effectively.
- Live Demo: flux-agency.netlify.app

Plants Avenue – E-commerce Website

- Designed and built an interactive plant-based e-commerce storefront.
- Integrated a smooth navigation system and product display components using React.
- Custom CSS3 and flexible grid systems to create a fluid, responsive layout.
- Live Demo: plantsavenue.netlify.app

Personal Portfolio

- Created a custom portfolio to showcase technical skills and project work.
- Implemented smooth scrolling and optimized media queries for various screen sizes.
- Live Demo: anurag-jangid.netlify.app

WORK EXPERIENCE

Freelance / Personal Projects

- Built several websites using React JS that work perfectly on both mobile and desktop.
- Created reusable UI components to ensure a clean, modern, and consistent look across the site.
- Implemented features like product sections, UI animations, and layouts.
